The applicant must have filed the application using the USPTO's Electronic Filing System (EFS).

The [c1]-[c20] tags were created by the USPTO and are appropriate (the "c" stands for "claim").

You can let the applicant know that you will withdraw your objection. They do not need to change anything by amendment. You will also NOT restart their period for response.

Send out an Interview Summary record letting the applicant know that you are withdrawing the objection.
